## DIRECTORS' REPORT

The Board of Directors of Pakistan Stock Exchange Limited (PSX) is pleased to present the financial statements of PSX for the nine months ended March 31, 2022.

### **ECONOMIC REVIEW & OUTLOOK**

Pakistan's economy recovered in FY21 from the pandemic backed by strong economic and monetary stimulus combined with relief to public and industry. Growth momentum continued in the first half of FY22 as the large scale industry, agriculture and services all fared well and benefited from the supply side response as well as buoyant demand.

Rise in consumption trend generated higher tax revenues that grew by 38.3% - this increase helped alleviate fiscal position that also benefited from low interest rate environment and temporary debt service suspension initiatives, which along with accommodative monetary policy till the end of 2021 allowed the government to pursue higher growth path.

Demand pressures however build up and fast turned the FY21 first quarter surplus on external current account to a deficit reaching -4.2% in the Q1 of FY22 as imports rose, boosted by the credit growth, international commodity prices and rising freight prices. Backed by strong incentives and market-determined exchange rates, both exports and remittances grew.

While these developments helped finance partly, the current account deficit during the period under review, PKR/US\$ exchange rate depreciated by over 16% since the start of fiscal year and PKR/US\$ parity touched US\$183.47—reportedly the lowest in Pakistan's history on March 31, 2022. The net SBP FX reserves as of March 25, 2022 stood at US\$12.05 billion as compared to US\$17.68 billion as of December 31, 2021.

Going forward, the government measures designed to stimulate exports and discourage unnecessary imports are expected to constrain the external current account deficit. Complicating the economic scenario however was the global uncertainty aggravated by the ongoing war between Russia and Ukraine that is not only fueling inflation but has downgraded the growth outlook in most countries and disrupted the supply chains.

In midst of this, domestic demand pressures as well as surge in global commodity prices, especially energy and food items magnified inflation in Pakistan that remained elevated in the first half of FY22. Growing public discontent with rising inflation and rising economic vulnerabilities because of the growing macroeconomic imbalances and central banks decisive actions to tighten monetary policy had its impact on the stock market. Domestic politics also took its toll on economy and financial markets as the Government faced a no-confidence motion which resulted in a political transition to the opposition that formed a coalition government and took over the reins of power. With the formation of the new government first order of priority has been to stabilize macroeconomic conditions and pursue continuity of the IMF program and restore the FX reserve position to stabilize exchange rate. Economic resilience will be tested in weeks to come but there is optimism that renewed endeavors will be launched to address short term challenges, while putting on course reform package that should help to regain market confidence.

### PSX FINANCIAL AND MARKET PERFORMANCE DURING THE NINE-MONTHS

The recurrence of the new waves of COVID and the challenging economic environment did impact PSX market performance and volumes significantly. PSX recorded an operating profit of Rs 35.2 million continuing the turnaround from operating losses that were being incurred for many years. This compares to an operating profit of Rs 126.5 million for the same period last year. It is encouraging that PSX has made operating profits, despite extremely adverse market conditions. Profitability was impacted by trading volumes, which were lower by over 40%, compared to the same period last year.

Profitability has been driven by growth in new equity and debt issuance, improvement and simplification of products and regulations to make it easier for investors and companies to access the capital markets and expense control over the last twelve months. Better cash flow management, resumption of dividends from associated companies and effective treasury operations that yielded higher markup income also contributed to profitability.

The **pre-tax profit** was Rs 417 million for 9MFY2022 (including Rs 414 million share of profit from Associates based on their profit after tax for 9MFY2022) as against pre-tax profit of Rs 587 million for 9MFY2021 (including Rs 427 million share of profit from Associates based on their profit after tax for 9MFY2021).

The operating expenses for the 9MFY2022 amounted to Rs 1,054 million vs Rs 908 million in the 9MFY2021. Excluding the impact of depreciation on real estate due to change in accounting policy, expenses increased broadly in line with the rate of inflation. The **post-tax profit** stood at Rs 369 million for the 9MFY2022 compared to Rs 542 million in the 9MFY2021.

### Earnings Per Share (EPS):

The basic and diluted earnings per share are Re.0.46 for the 9MFY2022 vs. Re.0.68 for the 9MFY2021.

### Market Performance:

Particulars	Nine months ended			
	March 31, 2022	March 31, 2021		
KSE-100 Index	44,929	44,491		
Market Capitalization (Rs in billion)	7,583	7,892		
Average daily value traded – All markets (Rs in billion)	16.1	27.7		

### Listings during the first nine months of FY2022:

- During the first nine months of FY 2022, five companies were listed on Main Board, and two companies were listed on PSX's GEM Board.
- Additionally, PSX listed two Convertible, Redeemable, Non-voting, Non-Participatory and Cumulative Preference shares by way of Right issue, where one was "Class A" preference shares.
- PSX listed two Privately Placed Sukuks and one Privately Placed Commercial Paper.
- Seven Open-end Mutual Funds were also listed.

### PSX OUTLOOK

**Developments and Initiatives in Trading & TREC Affairs activities.** In a major move forward, PSX launched another trading platform, i.e. Growth Enterprise Market (GEM) Board, to facilitate smaller growth companies to raise capital from the stock market. So far, two companies have listed on the GEM Board and PSX has also issued a criteria regarding eligibility of Accredited Individual Investor (AII) and respective documentation to provide clear guideline to investors of GEM companies.

PSX has launched 90-days maturity Deliverable Futures Contracts (DFC) along with favourable modus operandi for investors such as introduction of a new criteria of securities eligible for futures contracts, removal of segregation of A and B futures contracts categories, and elimination of mandatory one week roll-over period which allows investors to roll-over their existing positions any time before expiry as per their desire and liquidity positions.

PSX has actively participated in the launch of EClear Services Limited (ESL) being first Professional Clearing Member (PCM) under Professional Clearing Members Regulations and as part of new broker regime. So far 31 Securities Brokers have signed up with PCM for clearing and custody services.

PSX facilitated the implementation of KYC sharing between Banks and the Brokers. This is a landmark initiative in improving the client on-boarding process for opening brokerage account and is expected to contribute significantly to the investor experience and an increase in investor base.

### **IT** Initiatives

An open source observability platform named Grafana had been deployed which is a latest cutting edge technology tool and no cost was incurred on its deployment.

A number of regulatory mandates have been implemented within the existing frameworks provided by ancillary support systems including THIMS and PUCARS, such as Monthly Compliance Management of Brokers' Net Worth and Automated submission of Client Assets Segregation Statement.

Being vary of the fact that resilience, continuity and quality of operational processes are critical for PSX to remain "Always on", during this quarter, PSX organized a three day "BCMS Lead Implementer Course" on Implementing Business Continuity Management System (BCMS) as required by ISO 22301:2019. This training, in addition to building capacity, will improve understanding, design and implementation of Business Continuity processes along with operations management of BCMS.

### Marketing and Business Development initiatives

The Marketing & Business Development team continued to deliver on its objectives to create greater awareness about the opportunities presented by the capital markets for both investors and corporates by carrying out branding activities, investor & industry awareness sessions as well as encouraging new companies to list on PSX. Several other activities were also carried out to promote the Exchange to market participants, stakeholders, investors, issuers and the general public.

For the first time, PSX received the Best Islamic Stock Exchange Award 2021, presented by Global Islamic Finance Awards (GIFA). Webinars and in person sessions were held to further the cause of investor education, awareness and investor protection. Articles about the capital market, its products and offerings were also published on PSX website and major newspapers. An online course on basics of stock market investment was arranged through an exclusive partnership with a LUMS instructor for the benefit of (prospective) investors. The PSX Newsletter, 'At Pakistan Stock Market', was issued to keep the stakeholders & the general public abreast of the happenings at PSX in the outgoing year 2021.

### **Developments in Product Management and Research**

PSX is in final stage to launch PSX Dividend index which is designed to track the performance of top 20 dividend paying companies on the basis of trailing 12-months dividend yield. This Index shall also serve as a Benchmark for pure dividend-based strategies i.e., the market participants would be able to compare the performance of their dividend paying funds/portfolios with the benchmark.

PSX is also working towards the successful launch of Pakistan's first Fixed Income Exchange Traded Fund (ETF), which will provide a new product for investors.

### **BOARD OF DIRECTORS**

Following the changes reported in the Directors' Review Report for the half year ended December 31, 2021, no further changes have occurred on the Board of Directors of PSX during the period under review.

The Chair would like to thank all the Board Directors for their guidance and support. In addition, on behalf of the Board we acknowledge and appreciate the contribution and dedication of all staff members of PSX in performing their tasks with diligence and commitment.

For and on behalf of the Board of Directors

پاکتان اسٹاک بیچینچ کمیٹر (پی ایس ایکس) کے بورڈ آف ڈائر کیٹرز 31 مارچ، 2022 کواختتا م پذیر نوماہ کے لیے پی ایس ایکس کے مالیاتی گوشوارے پیش کرتے ہوئے نہایت خوشی محسوں کررہے ہیں۔ محا**ش**ی جائزہ ادر **عومی صورتحال** 

مضبوط معاثی اور مالیاتی محرکات کی اشترا کیت کے ذریعے عوام اور صنعتوں کو ملنے والے ریلیف کے باعث پاکستان کی معیثت مالی سال 21 کے دوران وبائی مرض کے اثرات سے نگل کر بحالی کی جانب گا مزن ہوئی۔ مالی سال 22 کی پہلی ششاہی کے دوران ترقی کی رفتار جاری رہی جس کا سب بید ہا کہ بڑے پیانے کی صنعت ، زراعت اور سروسز سب کی جانب سے انچھی کارکردگی کا مظاہرہ کیا گیا اور سپلائی سائیڈ کے رڈمل کو مدنظر رکھتے ہوئے بڑھتی ہوئی طلب سے فائدہ اٹھایا گیا۔

کھپت کے ربحان میں اضافے کی وجہ سے زیادہ نیک محصولات حاصل ہوئے جن میں 38.5 فیصد اضاف د کیھنے میں آیا۔ اس اضافے کے سبب مالیاتی پوزیشن کو کم کرنے میں مددلی جبکہ کم شرح سود کی صورتحال اور عارضی قرضوں کی خدمات کی معظلی کے اقدامات سے بھی فائدہ حاصل ہوا، جس نے 2021 کے آخر تک موافق مانیٹری پالیسی کے ساتھ بہترین ترقی کے منازل طے کرنے کے لے حکومت کو آسانیاں فراہم کیں۔

تاہم طلب کے دباؤ میں اضافے اور تیزی نے بیرونی کرنٹ اکاؤنٹ کے مالی سال21 کی پہلی سہ ماہی کے سرچکس کو مالی سال22 کی پہلی سہ ماہی میں 4.2- فیصد خسارے میں تبدیل کر دیا، جیسا کہ درآمدات میں اضافہ دیکھنے میں آیا، کریڈٹ کا بڑھنا، بین الاقوامی اجناس کی قینتیں اور مال برداری کی بڑھتی ہوئی قینتیں اس کا سب بنیں مصبوط تر غیبات اور مارکیٹ کی جانب سے قیمن کردہ شرح مبادلہ (exchange rates) کے باعث برآمدات اور ترسیلاتے زردونوں میں اضافہ ہوا۔

اگر چہ پی پش رفت جز وی طور پر مالیاتی حوالوں سے مددگار ثابت ہوئی ہے، تاہم زیر جائزہ مدت کے دوران ، مالی سال کے آغاز سے روپے امریکی ڈالر کی شرح مبادلہ میں 16 فیصد سے زیادہ کی کی واقع ہوئی جبکہ روپے /امریکی ڈالر کی برابر 183.47 امریکی ڈالر کی شطح کو چھو گئی۔ جو کہ 31 مارچ، 2022 تک پاکستان کی تاریخ میں میبینہ طور پر سب سے کم ہے۔ایس بی پی FX کے خالص ذخائر 31 دسمبر، 2021 تک 17.68 تاری برابر کی ڈالر کے مقابلے میں 25 مارچ، 2022 تک 12.05 ارب امریکی ڈالر کی شطح پر موجود تھے۔

مزید بیر که، برآمدات کی حوصلدافزائی اور غیر ضروری درآمدات کی حوصلة طنی کرنے سے سلیط میں اٹھائے جانے والے حکومتی اقدامات سے بیرونی کرنٹ اکاؤنٹ خسارہ محدود ہونے کی توقع ہے۔ تاہم روس اور یوکرین کے درمیان جاری حالیہ جنگ نے اقتصادی منظرنا سے کو پیچیدہ بنادیا ہے جس سے عالمی غیریقینی صورتحال میں اضافہ ہوا، جو نہ صرف مہذگائی کو بڑھاوا دے رہاہے بلکہ زیادہ تر مما لک میں ترقی کی سطح میں کسی لانے کاباعث بن رہا ہے اور سپائی چین کو بھی متاثر کر رہاہے۔

### نوماہ کے دوران پی ایس ایکس کی مالیاتی اور مارکیٹ کی کارکردگی

کورونا کی نتی اہر کی دوبارہ سے آمدادر مشکل معاثق صورتحال نے بلاشبہ پی ایس ایکس کی مارکیٹ کارکردگی اور جم کونمایال طور پر متاثر کیا۔ پی ایس ایکس کی جانب سے 35.2 ملین رو پے کا آپریڈنگ منافع ریکارڈ کیا گیا اور آپریڈنگ کی مدمیس کٹی سالوں سے ہونے والے نقصانات کا سلسلہ رک گیا۔ یہ پچھلے سال سے ای عرصے کے دوران حاصل ہونے والے 126.5 ملین روپے کے آپریڈنگ منافع سے مواز نہ کرتا ہے۔ یہ بات حوصلہ افزا ہے کہ پی ایس ایکس نے نا مساعد حالات کے باوجود آپریڈنگ منافع کمایا ہے۔ تجارتی حجم (trading volumes) کے اثرات منافع پر مرتب ہوتے، جو کہ پچھلے سال کے اس عرصے کے مقابلے میں 40 فیصد سے زائد کم رہا۔
